REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to the following:

16. (previously presented) A method for fabricating a multiple electrode device comprising at least one pair of electrodes that form at least one junction and at least one connector species connecting said pair of electrodes in said junction, said junction having a functional dimension in nanometers or micrometers, wherein said at least one connector species comprises said bistable molecule provided with at least one photosensitive functional group for patterning said connector species, said method comprising:

- (a) forming a first set of said electrodes on a substrate;
- (b) depositing a film of said bistable molecule(s) including said at least one photosensitive group;
- (c) exposing portions of said bistable molecular film to desired radiation to thereby cause at least one of photochemical decomposition or photochemical transformation of said at least one photosensitive functional group; and
- (d) removing unwanted portions of said bistable molecular film to provide a photopatterned film.

None of the prior art references of record disclose the claimed method wherein the fabrication of a multiple electrode device is made by photolithographically processing a film comprising a bistable molecule wherein the film is coated exposed, and removed.

Claims 27-30 are drawn to non-elected species and have been rejoined and under Markush practice and are not disclosed or rendered obvious over the prior art of record.

The newly cited references on the PTO-892 were previously cited in the parent case 10/001756 and are made of record here for a complete file wrapper.

Accordingly, claims 16- 30 are seen as allowable and passed to issue.

Art Unit: 1752

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Chu whose telephone number is (571) 272-1329. The examiner can normally be reached on Monday - Friday from 9:30 am to 6:00 pm.

If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's supervisor, Cynthia Kelly, can be reached on (571) 272-1526

The fax phone number for the USPTO is (571) 273-8300.
